DETAILED ACTION

Allowable Subject Matter

2. Claims 1-40 are allowed.

Examiner's Statement of Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The prior art along or in combination fails to teach or make obvious the limitations for a method and system for device addressing over a computer network that specifically comprises:

"determining a network location of a target device to which a first frame of information is to be sent, the first frame of information being formatted for a first communications protocol and including a device address field configured to store a device identifier" and

"selecting, based on the network location of the target device, an addressing scheme from among plural different addressing schemes" and

"generating the device identifier for the first frame on the basis of the selected addressing scheme, the device identifier corresponding to the target device" and

"generating a destination address for the second frame on the basis of the device identifier in the device address field of the first frame" as recited in the

independent claims 1, 10, 19 and 30.
